

ELENCO DOTTORANDI

Dottorato in Scienze e Tecnologie per l'Ambiente e la Salute

<u>N.</u>	<u>DOTTORANDO</u>	<u>CICLO</u>	<u>TESI</u>	<u>TUTOR</u>
1	Bruno Rosanna	31° con borsa	The role of UHRF1 in the epigenetic modification, involvd in the progression of Colorectal Cancer	Prof. ^{ssa} Lina Sabatino
2	De Matteo Ada	31° con borsa	Analogue modelling of volcanic edifices and active tectonic areas, integrated with others technique of modelling.	Prof. Bruno Massa Dr. Luca D'Auria Dr. Michael James
3	Di Munno Celia	31° con borsa	Cellular/mitochondrial functions and thyroid hormone metabolism in a rat model of catch-up fat: a functional/proteomic approach in skeletal muscle and adipose tissues	Prof. ^{ssa} Elena Silvestri
4	Esposito Davide	31° con borsa	Structural Insights Into p60 Subunit of Chromatin Assembly Factor 1: a Novel Cancer Associated Protein	Dott. ^{ssa} Giuseppina De Simone Dott. Vincenzo Alterio Dott. ^{ssa} Simona M. Monti
5	Noviello Teresa Maria Rosaria	31° senza borsa	Computational methods for deciphering the functional role of long non-coding RNA	Prof. Luigi Cerulo Prof. Michele Ceccarelli
6	Palladino Iolanda	31° con borsa	Study of the role of iodothyronines in the regulation of differentiation via Ca ²⁺ homeostasis	Prof. ^{ssa} Lorella Canzoniero Prof. ^{ssa} Elena Silvestri
7	Tartaglia Maria	31° con borsa	Analysis of the effects and responses to biotic and abiotic stress of plants grown on soils with biochar	Prof. ^{ssa} Mariapina Rocco
